**\*\*\*Training and Technical Assistance**

While training and technical assistance are not required, training is offered both onsite and regionally. Potential trainers are encouraged to complete a readiness assessment to determine the extent of training they may need. Potential trainers who demonstrate adequate experience should attend our 5-day training course (\$750.00 per person, plus travel and per diem). Inexperienced potential trainers should attend our 10-day training course (\$1,500 per person, plus any necessary travel and per diem costs). Groups of five or more may inquire about scheduling private training sessions.

Customized onsite technical assistance and training is available at a cost of from \$400 to \$1,500 per day (plus travel and per diem), depending on the number of consultants needed and the total number of days requested at your site. Training is available in a variety of formats on any combination of CLFC modules desired. Limited technical assistance is available FREE. For more information about training, visit the COPES web page <http://copes.org/clfc-implementation.php#Staff%20Training>
